

BECAUSE OF YOU 2014-2015

Inspiring generosity for the health of our families, our region and beyond
University Hospitals Kingston Foundation

See Mike Gardner's inspiring story on page 10

A photograph of Mike Gardner, a man with glasses wearing a dark blue suit, a striped tie, and a striped shirt. He is standing outdoors on a grassy area with yellow dandelions. He is holding a black cane in his right hand. In the background, there are trees, a white bus labeled "Kingston Access Bus", and a modern building. The sky is clear and blue.

I never
thought I
would walk again.

LOOK WHAT YOU'VE DONE

For those who need specialized health-care, 2005 marked an important milestone—the creation of the University Hospitals Kingston Foundation (UHKF).

Over the past 10 years, your support has helped UHKF achieve so much, including raising the funds to proceed with largest-ever hospital construction projects.

Because of you, we have a new cancer centre, new treatment spaces, and new programs designed for today's needs. Because of you, a new hospital is being built for Providence Care. Because of you, we are getting more of the type of care we deserve.

While we reflect on the achievements of the last 10 years, we are excited about what the next 10 will bring. Thank you for inspiring us!

Ian Wilson,
Chair, Board of Directors
Denise Cumming, CFRE,
Executive Director

**UNIVERSITY HOSPITALS
KINGSTON FOUNDATION**

SOME HIGHLIGHTS

01

A full-service foundation

In July 2014, UHKF amalgamated with the three hospital member foundations, creating one streamlined foundation responsible for fundraising, investing and granting.

73

You can count on UHKF

Did you know that UHKF was one of the first 100 registered charities in Canada to be accredited through Imagine Canada's *The Standards* program? That means we comply with 73 top industry standards in board governance, financial accountability and transparency, fundraising, staff management and volunteer involvement.

112

Your passion moves us

Seeing the difference that you make inspires us every day. Our staff are lucky to work alongside 112 of you who also share your time through volunteering with UHKF.

10+

\$10.2 million received

You understand the importance of ensuring our healthcare providers have the equipment, research and training they need to provide the best care for our families, our region and beyond.

POSITIONED TO PROVIDE OUTSTANDING CARE

82,113

Cancer Centre visits in 2014

\$800,000

in energy savings thanks to facility upgrades

\$90,000

in prostate cancer research funding through Ride for Dad

\$36M

more funding from government thanks to redevelopment

80%

raised for new Centre for Patient-Oriented Research

\$121,294

in educational grants in 2014

Your investments in hospital redevelopment continue to create new opportunities and additional services. Because space was finally available, a new skin cancer clinic area was created (and furnished with needed

equipment) thanks to the generosity of our donors. A new "teen" room, named in honour of McKenna's Dream, has been opened in the Cancer Centre, featuring a fresh new look, tablets and other tech-

nology, thanks to funding from the Estate of Larry Gibson. Your donations also helped support renovations to support installation of a state-of-the-art radiation therapy machine to provide specialized care for

people with complex cancer. The latest in treatment technology can be found in other care areas as well. In January, a special electrophysiology lab opened behind the expanded intensive care

unit at KGH. Ours is the first hospital in Ontario and only the second in Canada to have this new technology that enables our specialists to provide less invasive cardiac procedures. It was made possible, in part, by donors like

you. It is because of support from donors like you that these advances are now available here.

Leading the way in ambulatory care

surgery

Did you know that there were about 7,000 surgical procedures at Hotel Dieu last year? This includes 185 hip or knee replacements, where patients recover in a short-stay unit and return home in 48 hours.

eye care

By supporting the expansion of eye care services at Hotel Dieu, you have enabled a first-of-its-kind treatment space for age-related macular disease. This space is designed for safe, efficient treatment of more patients.

urgent care

Urgent Care staff are committed to continually looking for better ways to provide care. You have helped them too by providing equipment such as a portable ultrasound device, blanket warmers and more.

dermatology

Hundreds of people are now receiving care through a new dermatology clinic at Hotel Dieu. This clinic includes a phototherapy unit. You made this new service possible through redevelopment at Hotel Dieu!

Other highlights

- There were 548,973 visits to Hotel Dieu Hospital in 2014/15. Thank you for helping make this possible by creating the right space.
- The Queen's University Centre for Neuroscience Studies opened new clinical labs at Hotel Dieu, moving patient-oriented research closer to ambulatory care clinics.
- A new Nurse Practitioner-led clinic opened to better serve patients with multiple chronic illnesses, reducing ER visits.
- Imaging just got faster and a bit more comfortable at Hotel Dieu, thanks to a \$500,000 upgrade, funded in part by donors.
- In 2014, UHKF's Women's Giving Circle awarded \$19,879 for pain-related research.

best practices

Hotel Dieu was named a Best Practice Spotlight Organization by the provincial Registered Nurses' Association for clinical excellence in:

- ✓ Enhancing client-centred care
- ✓ Falls prevention
- ✓ Managing pain
- ✓ Reducing diabetic foot complications
- ✓ Managing diabetic foot ulcers

run record

The 2015 Child Development Centre (CDC) annual Run/Walk raised a record \$34,000 in April! These funds are used to purchase equipment and to provide programs for children and youth with neurological, developmental or physical disabilities. The CDC celebrated its 40th anniversary last September.

satisfaction

Hotel Dieu received high performance ratings based on patient satisfaction surveys according to National Research Corporation Canada for care areas such as:

- ✓ Overall care in Urgent Care (top performer of 17 teaching hospitals)
- ✓ Day surgery (1 of 3 top performers in 28 Ontario hospitals)

You made it a reality!

Because of your generosity, Providence Care Hospital is quickly becoming a reality.

This model leads the way in modernized mental health and rehabilitation. The new hospital will be home to 270 private rooms:

- 120 specialized mental health care
- 100 complex continuing care
- 50 rehabilitation

The new hospital will also serve many more members of the community through outpatient care.

Learn more

Curious about what the new hospital is going to look like and how it is being designed? You don't need to wait until opening day to find out! UHKF has partnered with Providence Care and Station 14 to bring you a fun, informative series of short videos called *Brick by Brick*. Visit the UHKF website today at www.UHKF.ca

Your New HOSPITAL

The new Providence Care Hospital will use rooftop terraces and indoor courtyards to take advantage of natural lighting and the beauty of nearby Lake Ontario, creating a therapeutic and hopeful atmosphere for patients and clients. The hospital will also incorporate new technology throughout the hospital to enhance efficiency in the delivery of care. Providence Care will be the first hospital of its kind to bridge mental health care with physical rehabilitation and complex care services under one roof. This union is a step forward in eliminating stigma around mental health and its associated facilities.

Finding hope

Mike Gardner and his wife were preparing dinner at home when he first experienced the alarming symptoms of a stroke. "I just couldn't move my left side. I literally couldn't move my hand, my leg, and I started to feel very weak," he recalls. "I just said to my wife, call 911. Something's not going right here."

Fortunately the Gardner family had just moved to Kingston, home to one of Canada's top acute stroke teams. They were able to get Mike the care he needed as soon as he arrived at

Kingston General Hospital. Doctors quickly presumed that he was suffering a stroke, and immediately got him the MRI, diagnostics and medication he needed.

"I got the sense from the two doctors who were taking care of me at the time that they were going to try to help me the best they could," he says.

The urgency of Mike's stroke meant he was able to get an MRI right away, but there is a growing need for a second MRI machine in our region to service the hundreds of other patients waiting for a scan.

"Imagine if you had a few more MRIs," says Mike, "how many more lives would you save? There are a lot of people out there that need it."

After a month of care at KGH, Mike was moved to Providence Care's St. Mary's of the Lake Hospital site where he began a rigorous rehabilitation program.

Mike continues to work alongside a team of doctors, nurses, and physiotherapists, improving his mobility every day.

Six months after his stroke, Michael is walking himself down the path to recovery but still has a lot of work to do.

"I've still got a lot of road ahead," he says, but he doesn't think he would have been able to go home three months after his stroke if KGH and Providence Care weren't making this happen.

You can watch a video of Michael's story at <https://give.uhkf.ca/Mike>

Assessing the most complex cases

Kingston General Hospital is much more than its name suggests – in fact, it is the hospital where people from across Southeastern Ontario are sent for their most specialized care. Cardiac, cancer, trauma,

pediatrics, neurological and critical care are just a few of the many specialties at KGH. All of these services rely on diagnostics to help provide the right information for assessment and treatment

of patients. KGH is also home to the only MRI in southeastern Ontario where the most complex scans can be completed. A second MRI would help our residents get needed complex scans faster.

Working towards to our \$6M goal

A \$6-million fundraising project was launched in late 2014 in an effort to bring a second MRI to KGH. The provincial government has agreed to pay ongoing operating funds for the machine, if our community

comes up with the funds to purchase the unit and to have it installed. To date, more than 400 people are supporting this major initiative. Some have taken part through *Cheers!* event dinner parties, others

have made outright donations. We know the need for the machine is real. The sooner we can get it installed, the less time our friends and families will need to wait for vital diagnostic scans.

Our Stats

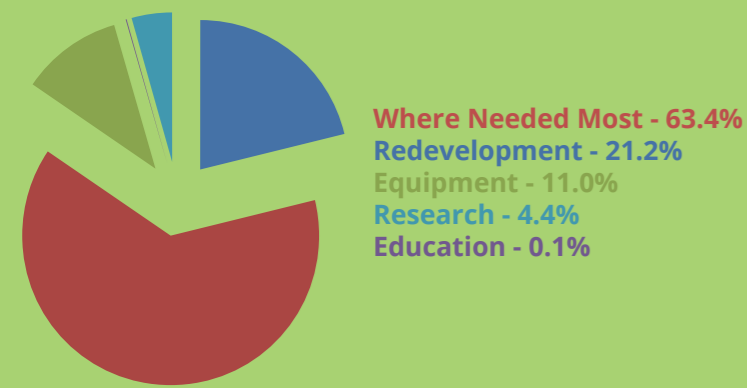

The information presented here is for the fiscal year ended March 31, 2015. It is derived from our draft financial statements for 2014-2015, which will be audited by KPMG.

The final, complete audited financial statements and T3010 Registered Charity Information Return, as filed with the Canada Revenue Agency, will be available at uhkf.ca/about/financial-information/.

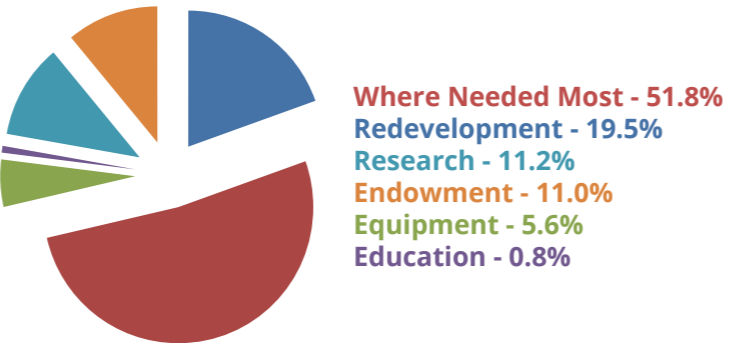

Donations allocated to hospitals in fiscal year 2014/2015:

- Hotel Dieu Hospital - \$1.4 million
- Providence Care - \$1.8 million
- Kingston General Hospital - \$7.0 million
- Total donations to UHKF in 2014/2015 - \$10.2 million

Grants to Hospitals

Rewarding excellence in philanthropy

Congratulations to long-serving board member, donor and volunteer extraordinaire Jennifer Fisher. Jennifer is being awarded the **2015 Ian Wilson Award for Volunteerism**.

Jennifer has given in all ways possible to UHKF. A long-serving and hardworking member of the Board, Jennifer has served on two of the hospital foundation boards. As Treasurer of UHKF, she actively chaired the Finance and Resource Committee from its inception until the amalgamation in July 2014. She has provided invaluable advice to UHKF staff throughout UHKF's entire history.

Jennifer has participated in the entire spectrum of giving. She is a generous donor, and her company has given as well. Jennifer has opened many doors in the business community on behalf of UHKF, attends calls with supporters, and assists in municipal presentations and in thanking donors.

Jennifer is an excellent volunteer who is very deserving of the Ian Wilson Award.

Heartfelt congratulations are also bestowed upon the B'nai Brith Lodge and Elisabeth (Liz) Dobbs Jones, recipients of the **Davies Awards** for Philanthropic Leadership.

The B'nai Brith Lodge Kingston has given more than \$200,000 to UHKF in support of Kingston's hospitals and are committed to their support in the future. This organization is a philanthropic leader in the community and helps to ensure our region is a place where families, children, seniors and individuals alike can live life to its full potential. B'nai Brith members have an outstanding track record of dedication to our community.

Liz, at left, at the Relay for Life 2014

Liz Dobbs Jones retired from her role as Director of Major Gifts at UHKF in June 2014. She is a passionate, positive person, who loves to help others. Her focus on improving health care for people of our region is steadfast. She has been unfailingly generous with her own time and money, encouraging and inspiring others to do the same. If Liz walked into a room and you didn't know her, she would introduce herself by saying, "We're all just friends who haven't met yet."

We deserve the best

Susan Creasy knows how fortunate we are to live in an area with access to the specialized health services available in Kingston. And she also understands how important it is that we play a role in ensuring we will have access to the best in the future. "I think if we can have state-of-the-art research facilities and state-of-the-

art diagnostics, we have the opportunity to have the best of the best coming to our community to practice health care," she says. Susan is so committed to building our healthcare services, she is taking on a major volunteer role in leading the next fundraising campaign in support of redevelopment of Kingston healthcare.

She has also committed a personal gift of \$100,000. "I think Kingston is a great community. We support each other and have opportunities and lifestyle privileges here that are second to none," she says. "I think Kingston really cares." The campaign for the next round of redevelopment launches this autumn.
